## COURSE: Project Management Professional

### What you'll learn

This course qualifies for 35 Contact Hours toward the PMP® certification from PMI.

- Practice for the PMP® Certification Exam
- Gain a comprehensive understanding of the Project Management best practices
- Demonstrate proficiency in the principles, techniques, and tools needed to be a successful lead on a project.
- Have an in-depth understanding of how each knowledge area overlaps with each other, and the activities and outputs associated with them
- Know the details and practices involved with starting and closing a project, as well as everything in between
- Apply your knowledge throughout the course with quick quizzes and be fully prepared for the PMP exam with our final exam!
- Participate in active discussions with other PMP candidates & participants becoming PMP

In this course, you will learn the skills you need to be an effective project manager as well as the knowledge you will need to pass the PMP® certification exam. Upon completing this course's final exam you will be eligible to print your Certification of Completion for submission to PMI for this purpose.

### Course Overview:

If you're interested in becoming an accomplished project manager, this training will establish your understanding of all the fundamental concepts, processes, and procedures necessary to become an effective project manager. You will spend time concentrating on

each knowledge area, and studying the tools and techniques, inputs, and outputs associated with each knowledge area. Specifically, you will cover the project management life cycle, project scope, project scheduling, team dynamics, and more. From there, you will build on that understanding so that you know how to effectively implement the strategies and practices discussed. All in all, you will gain all the skills to be competitive in your career as a project manager.
